Ms. Sharon Flissar
Public Works Director
City of Sierra Vista
401 Giulio Casare Avenue
Sierra Vista, Arizona 85635

Dear Ms. Flissar:

The Federal Aviation Administration (FAA) has reviewed the aviation forecast for the Sierra Vista Municipal - Libby AAF Airport (FHU) provided to our office on May 23, 2024. The FAA approves this forecast and the use of E-V for the Primary Runway 8-26, representing a combination of F-15 and F-16 Fighter Jets, and Boeing 777-200 as the future critical design aircraft; the use of C-III for Crosswind Runway 12-30, representing Boeing 737-300 as the future critical design aircraft, and also approves the use of B-II for Runway 3-21, representing the Embraer Brasilia 120 as the future critical design aircraft.

The forecast was developed using current data, appropriate methodologies, and is within the acceptable range for TAF tolerance. Therefore it is approved for planning purposes, to include Airport Layout Plan development at FHU. It is important to note that the approval of this forecast doesn't guarantee funding for large scale capital improvements as future projects will need to be justified to current activity levels at the time the projects are proposed for implementation.

If you have any questions about this forecast approval, please call me at (602) 792-1074.

Sincerely,

**Kenneth
Paul Hall**
